Dear Lee Hill

Thank you for your recent communication. The appeal to the ICO is due to a number of confirmed deceptive responses from TFL in regard the actual technical details of the ULEZ hardware deployment and the radiation risks causing detrimental environmental effects from that deployment and the ignorance detailed and or wilful disregard of the environmental detrimental effects of the said battle field weapons interrogation hardware deployment in the JACOBS, defence industry contractors London-wide ULEZ Integrated Impact Assessment (ULEZ Scheme IIA) Document no: 01 Revision no: 01 Transport for London 94202/53.

I can assure you that there is no confusion over the untrue deceptive response from TFL over the technical details of the YUNEX RADAR LIDAR CAMERA, FUSION Technology deployment

I specifically requested information regarding the technical details of the FUSION RADAR LIDAR CAMERA technology so as to elucidate the experimental high levels of Radiation emission risks to the environment and property, that I have been told by TFL do not exist, even though I have all of the technical details of the hardware and evidence of that radhard hardware deployment across LONDON.

TFL have replied with a number of false statements over the technical details, an obstruction not in accordance with the Environmental Information Regulations (EIRs) and their information access policy. The facts of the matter confirm that either TFL have either deliberately deceived me and breached the Statutory instrument requirement or have themselves been deceived over the deployment of the multi faceted invasive RADAR LIDAR CAMERA data monitoring YUNEX bio metric track trace radiation termination technology and the cumulative environmental radiation risks posed to property and the environment gathering invasive personal biometric data. The hardware is as stated in the YUNEX TFL collaboration document experiment that has the capability of full bio metric audio interrogation capabilities across the whole city of London through FUSION 5GW Battle space derived hardware and 5G Mil Lockheed Martin Microsoft AI Azure DEW software control..

Yours Sincerely

Mark Steele

Dear Mr Steele,

I am writing to you further to the below appeal, which I understand you have recently escalated to the Information Commissioner.

In these interests of reaching a more prompt resolution I am keen to understand the basis of your appeal so that I can address any confusion or uncertainty to you directly. Could you please set out clearly and concisely which element(s) of your request you consider to be inadequately addressed and I will look into this further and get back to you.

I note, for instance, that you have asserted our response to be untrue. However I am not clear on what basis you believe this to be the case. If you're able to provide additional information on this point I can investigate further and provide a more thorough explanation of our position.

Yours sincerely

If you have not seen my interview with Mark Steele, he explains how the metamaterials in the COVID bioweapons interact with 5G and how the smart cities are prisons that are used for total surveillance civilians and are fully weaponized as he now confirms. The self assembly nanotechnology allows total surveillance and control and the metals in the shots enhance facial recognition satellite technology.

In addition to the three larger pyramids, there were in total also eight smaller pyramids on the Giza plateau in Ancient Egypt. To many, it is clear that the three three larger pyramids refer to Orion's Belt. These three pyramids were built below on the surface of our home planet, just as these three stars are above in the sky ("As Above, So Below"). More info...
